

**CABLE TYPE** : RG 6 A/U  
**SPECIFICATION** : MIL C-17  
**APPLICATION** : Used in high frequency transmission especially in radio and Satellite antenna systems as connection cable.  
**CONSTRUCTION** : 1x 0,72 mm copper coated steel wire 4,70mm. Solid PE 1st 96% Silver coated copper wire 2st 96% Silver coated copper wire 8,50mm. Black PVC outer sheath Cable weight 122 Kg/Km. Standart packing 100-500-1000m

**TECHNICAL DATA**

1 . Capacitance	:	67 pF/m.			
2 . Impedance	:	75+3 ohm			
3 . Velocity Ratio	:	0,66			
4 . Insulation Resistance	:	> 2000 Mohm km			
5 . Working Temperature	:	-40 0C+70 0C			
6 . Working Voltage	:	1,3 kV			
7 . Test Voltage	:	3,0 kV			
8 . Min. Bending Radius	:	5 xD			
9 . Attenuation :					
Frequency ( MHz)	100	200	500	800	1000
Attenuation (dB/100m)	8,8	13,5	21	27,5	32,5
